Education

Bachelor of Computer Applications (BCA)	2018 – 2021
Bharati Vidyapeeth Deemed University	Navi Mumbai, MH
CGPA: 7.72	

Higher Secondary Education	Feb 2017
J.J Academy junior College of Science and Commerce	Mumbai, MH
Percentage: 62.23%	

Projects

Online Messaging Website   *Java, JDBC, JSP*

The website is a platform for users to message each other instantly. The website is built with the help of JSP and JDBC. The website contains inbox and sent sections as well as a trash section to keep track of and restore deleted messages.

Internet Forum and Content-Sharing Website   *React, Django, CSS*

Internet-forum and content-sharing website was a Group Project. The website is a Reddit-like platform for users to post content and have discussions about various topics. I worked on design of the project using CSS.

Windows Audio Player   *C#, .NET*

Audio Player was a Group Project Developed for Windows. The application supports playback from local files as well as YouTube music via the YouTube Data API. I implemented the playlist feature for the audio player.

Portfolio   *HTML, CSS*

Created a portfolio website that highlights my projects and skills. The website was built with the help of HTML and CSS.

Technical Skills

Languages: Java, C#, HTML, CSS, SQL, JavaScript
